Community Engagement Update January 2023

Ballan Library and Community Hub

Phase 2 Community Engagement

Current Status

Detailed community feedback received during phase 2 of community engagement, has been evaluated and incorporated into the design process for the Ballan Library and Community Hub.

Our project team has been working closely with the architect to ensure that the design of the Ballan Library and Community Hub reflects the aspirations of the local community and is responsive to feedback gained during the community engagement process.

We Previously Asked

During phase 2 consultation we asked questions related to the following topics:

- Facility spaces
- Facility design
- Outdoor space
- Services, programs and operations

Engagement Opportunities

Phase 2 community engagement for the Ballan Library and Community Centre included the following opportunities for the community:

- Online survey
- Ballan Community Café (in person)
- Gordon Community Café (in person)
- School visit and feedback session.

Next Steps

The project team will progress with the development of the Ballan Library and Community Hub design.

We will soon be in touch again to let you know when the project plans are available to view.

Visit Council's 'Have Your Say' digital portal for future updates on this and other important community projects. https://haveyoursay.moorabool.vic.gov.au

What we heard	How we are responding
(Key themes from phase 2 engagement)	
Facility Spaces	
Creating safe spaces	The building has been designed to feel welcoming, open, light and spacious. Each user group has its own dedicated space that is all-inclusive and caters for all demographics.
A range of flexible meeting spaces	A flexible meeting space is to be located on the ground floor,
Multipurpose spaces Performance/event space	designed for a large meeting but with capacity to expand the space for larger events. The intent is for this space to be available outside of normal operating hours.
Teenage and children's spaces	The children's library space is located on the ground floor, and
Separation between children/study spaces	study spaces located on the first floor. A teenage space is also located on the first floor.
Study and reading areas around the library	A variety of study and reading areas to be provided on the ground and first floor, suitable for individual or group activities.
Tables for groups, comfortable chairs	There are multiple locations, on both floors, throughout the
Spaces for socialising and connecting	building with tables and comfortable chairs for socialising and connecting.
Kitchenette accompanying meeting spaces	The design will incorporate kitchenettes located nearby the meeting spaces and available for general community use.
Creative spaces for exhibitions/workshops	An exhibition space is to be featured on the ground floor,
Gallery space with exhibitions	suitable for art and community exhibitions. Meeting spaces will
Maker spaces	be flexible to use in a variety of ways.
Work from home/business spaces	In addition to general study/meeting spaces, the design
Semi quiet spaces (soundproof rooms)	includes small rooms suitable for individual study or an online video meeting.
Breastfeeding and baby change facilities	A parent's room will be provided.
Play areas for children	The children's library area will have space for a range of children's activities.
Design Features	
Strong architectural design	Croxon Ramsay have been appointed to develop an
Use of natural materials, timber	architectural response for the building. A range of materials are to be considered for the finishes.
Acknowledge local historical buildings	Careful consideration is taking place in the design to acknowledge materials used in historical buildings, and how the building interacts with its setting, particularly the post office.
Connection to street front	The main entrance will be accessible from street front, and
Welcoming and able to see inside	there will be windows to the community lounge area of the library.
Suitable seating spaces near windows	Seating areas will be located in the northern facing areas to
Take advantage of northern natural light	take advantage of the light.
Light and airy	Windows and light filled spaces will be an important feature of
Large open windows	the design.
Honouring First Nations culture	Council is engaging with First Nations to identify ways to incorporate First Nations culture.
Accessibility – suitable for all abilities and	Accessibility and DDA compliance are an important aspect of
sensory experiences	the building design.
Acoustics and noise reduction	Acoustic treatments are being considered for the building, together with quiet study areas.
Returns chute prominent/close to parking	Returns chute located at front of building in proximity to parking.

Signage with English, Indigenous and braille Access to car parking Car parking will be available at the front of the building. There is a proposed footpath which will provide access for the community to access. Council's existing car park. Outdoor Space Outdoor space to socialise/study/events Suitable seating Suitable seating Sall intimate space and event space Flexible courtyard Large trees Landscaping around the building will include garden beds and trees. The species of tree and size will depend on the space available. Native plants or community garden Native plants or community garden Native plants will be included as part of the landscaping Options for public art display Potential for outdoor public art and temporary art/projections Wi-Fi access outside Services, Programs and Operations Wi-Fi access outside Wi-fi will be available outside Services, Programs and Operations Touch screen/interactive map for tourism Consideration. Information Technology/future proof The library will feature modern technology and has been designed to with an eye to accommodate future advances. Video conferencing, Computers, printing, wi-fi Open daily Arts and culture, exhibitions, craft groups Arts and culture, exhibitions, craft groups Children's and early years programs Programming of the facility are still to be determined. An exhibition space is to be featured on the ground floor, suitable for art and accommunity exhibitions. Meeting spaces will be flexible to use in a variety of ways. Programming of the facility is still under consideration and will incorporate children's and early years programs. Feedback from local children — What should your new library look like? The facility is being designed to create as large and functional a space as suits the site. We will use this feedback through the furnishing design phase. The facility is library will be provided and available for use by all. More books The fibrary will have a fantastic collection of books available for all to access. Feedback f
