Shire Council

Dear Community Members,

We are thrilled to share the valuable insights gathered from our recent community engagement for White Avenue Reserve. The findings reflect the deep affection our community has for the park, with many frequenting it multiple times a week, particularly emphasizing its role as a play haven.

Here are the key takeaways:

- **Playground Enhancement:** An overwhelming 88 percent of respondents expressed a desire for a new playground within the reserve.
- **Native Landscaping and Biodiversity:** A resounding 96 percent of participants expressed a keen interest in incorporating native landscaping and enhancing biodiversity.
- **Shaded Areas:** A notable 68 percent highlighted the need for more shaded areas within the reserve.
- **Limited Interest in BBQs and Shelters:** Interestingly, a significant number of respondents did not favor the addition of BBQ facilities or shelters in the park.
- **Seasonal Comfort:** The majority of respondents found the reserve uncomfortable both in summer and winter.

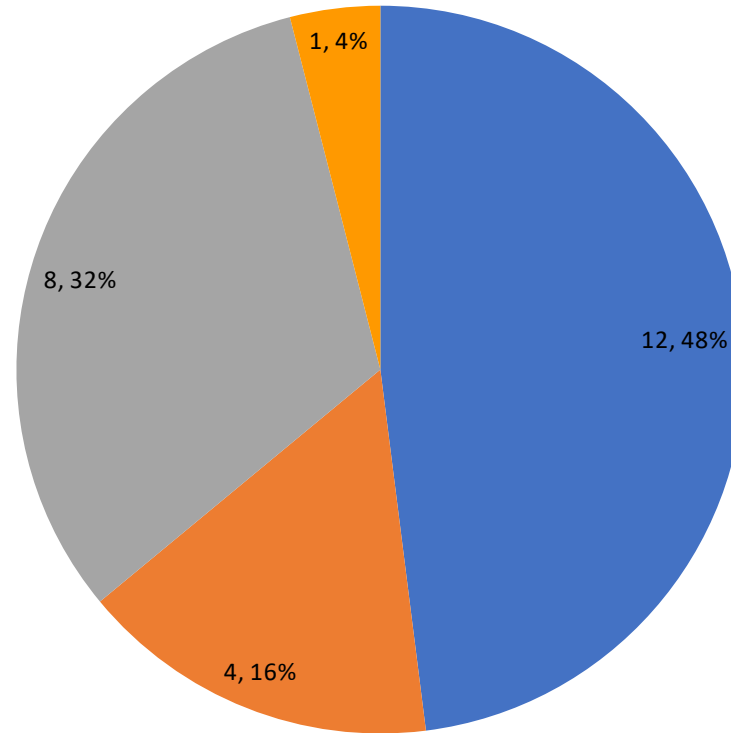

In response to these valuable insights, our design consultant has crafted a comprehensive plan that addresses the community's needs and desires. This plan includes enhanced amenities and a new concept design tailored to make White Avenue Reserve an even more enjoyable space for everyone.

Your input has been instrumental in shaping the future of our beloved reserve. We appreciate your active participation and look forward to creating a park that truly reflects the heart of our community.
