Mayor and CEO's Introduction

We are pleased to present the Moorabool Shire 2024/25 Budget to our community.

The 2024/25 proposed budget is aligned with the vision in the Council Plan 2021-25. It seeks to maintain and improve services and infrastructure as well as deliver projects and services that are valued by our community. The recommended budget details the resources required over the next year to fund the large range of services we provide to the community. It also includes details of recommended capital expenditure allocations to improve and renew our Shire's physical infrastructure, buildings and operational assets as well as funding for a range of new initiatives.

The proposed budget for 2024/25 has been prepared through a rigorous process of review by the officers, management and Councillors to ensure that it is aligned to the vision and the objectives as set out in the Council's latest Council Plan. Value for money remains a guiding principle in this budget and to keep rates as affordable as possible while delivering all of Council's ongoing services and infrastructure our community needs within the State Government's rate cap. Our focus remains on the delivery of essential services our community needs and expects - including roads, rubbish and recycling, library services, sporting ovals, street-sweeping and a wide range of community services from school crossings to maternal and children's services.

For the 2024/25 Annual Budget, rate increases have been capped at 2.75% in line with the Victorian Government's Fair Go Rates System. Despite the financial challenge this poses, Council is determined to maintain and enhance its services, while working within the cap. Council is also determined in its efforts to keep financial pressure on the community to a minimum.

The 2024/25 Budget and Strategic Resource Plan is part of Council's integrated planning framework and follows through with strategic priorities that are identified in the Council Plan. The Council plan continues to seek community input and engage the Moorabool Shire Council community in its decision making.

Moorabool Shire Council has seen significant growth in recent years and our capital program has been developed to meet community infrastructure needs now and into the future. Council will fund several new initiatives and will allocate additional funds to renew the Council's infrastructure.

Some of the key projects recommended as part of the 2024/25 Capital Program include:

- Yendon No. 2 Road, Yendon Reconstruction (\$2.450 million)

1. Link to the Integrated Strategic Planning and Reporting Framework

This section describes how the Budget links to the achievement of the Community Vision and Council Plan within an overall integrated strategic planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision and Financial Plan), medium term (Council Plan, Workforce Plan, and Revenue and Rating Plan) and short term (Budget), and then holding itself accountable (Annual Report).

1.1 Legislative planning and accountability framework

The Budget is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated strategic planning and reporting framework that applies to local government in Victoria. At each stage of the integrated strategic planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Jobs, Precincts and Regions

In addition to the above, Council has a long term plan (Moorabool 2041) which articulates a community vision, mission and values. The Council Plan is prepared with reference to Council's long term Community Plan.

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes. The Council Plan, including the Strategic Resource Plan, is required to be completed by 30 June following a general election and is reviewed each year in advance of the commencement of the Annual Budget process.

1.1.2 Key planning considerations

Service level planning

Although councils have a legal obligation to provide some services— such as animal management, local roads, food safety and statutory planning—most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, councils should engage with communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

Community consultation needs to be in line with a councils adopted Community Engagement Policy and Public Transparency Policy.

1.2 Our purpose

Our Vision

Embracing our natural environment and lifestyle options to create an inspiring place for everyone to live, work and play.

Our Purpose

Council exists to co-design local solutions that enable our communities to prosper now and into the future.

We do this by:

Our values

By living these values Council is able to build strong relationships internally, with the community and with partners.

4. Notes to the Financial Statements

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's budget.

As per the Local Government Act 2020, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2024/25 the FGRS cap has been set at 2.75%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 2.75% in line with the rate cap. This will raise total rates and charges for 2024/25 to \$47.597 million.

Council has a long-established methodology for calculating waste/garbage charges based on user-pays principles. This methodology formed part of Council's successful 2016/17 rate cap variation application which was approved by the Essential Services Commission.

In December 2023, the Local Government Service Rates and Charges Good Practice Guidelines were published. These guidelines were issued under s.87 of the Local government Act 2020 and are not mandatory. Council is in the process of evaluating these recommendations and may elect to change its methodology for waste/garbage charges calculations in future budgets.

5b. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives. The financial performance indicators below are the prescribed financial performance indicators contained in Part 3 of Schedule 3 of the *Local Government (Planning and Reporting) Regulations 2020*. Results against these indicators will be reported in Council's Performance Statement included in the Annual Report.

Notes to indicators

5a

1. Satisfaction with community consultation and engagement

Demonstrates the community's perception of whether council decisions made and implemented had community input. High or increasing satisfaction rating suggests an improvement in the effectiveness of council's consultation and engagement strategies and decision-making practices. Council is targeting improvement in this area.

2. Sealed local roads below the intervention level

Assessment of the degree to which Council maintains high-quality infrastructure. Lower proportion of roads above the renewal intervention level suggests a high-quality road network.

3. Planning applications decided within the relevant required time

Significant investment in process and system improvements has provided Council the ability to process applications more efficiently.

4. Kerbside collection waste diverted from landfill

Assessment of the extent to which council promotes community environmental outcomes. Higher volume of waste diverted away from landfill suggests a more effective waste collection system. Council is comitted to improve in this area.

5. Working Capital

The proportion of current liabilities represented by current assets. Working capital is forecast to increase over the next four years.

6. Asset renewal

This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

7. Rates concentration

Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council will become more reliant on rate revenue 8. Expenditure level

Assessment of whether resources are being used efficiently to deliver services. Council is committed to minimising the burden on residents and has targeted only minimal increases to this metric.

5b

9. Adjusted underlying result

An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. There is a positive trend in later years showing Council commitment to sustainable growth.

10. Unrestricted Cash Assessment of council's abilities to pay bills on time. Higher unrestricted cash relative to liabilities suggests councils are able to pay bills in a timely manner.

11. Debt compared to rates

Trend indicates Council's reducing reliance on debt against its annual rate revenue through redemption of long term debt.

12. Rates effort

Assessment of whether councils set rates at an appropriate level. Lower proportion of rate revenue suggests a reduced rate burden on the community. **13. Revenue level**

Assessment of whether resources are being used efficiently to deliver services

6. Schedule of Fees and Charges

This appendix presents the fees and charges of a statutory/non-statutory nature which will be charged in respect to various goods and services during the financial year 2024/25. Fees and charges are based on information available at the time of publishing and may vary during the financial year subject to any changes in Council's policy or legislation.
