

Have Your Say – Car Parking Study

Council has been working on a Moorabool Car Parking Study to measure parking needs, changes that can be made, and ways of better managing parking and trips.

Potential actions to improve parking in precincts in Bacchus Marsh and Ballan have been provided, and we'd like to know what you think.

We're also seeking feedback on your general parking issues across the Shire, to assist in developing a Moorabool Car Parking Policy which will guide parking supply and management.

We want your feedback! You can have your say on our website until 24 May <https://moorabool.engagementhub.com.au/> or printed copies are available from Council offices
